OPTI's Mission & Vision

The Mission of the KCU-GMEC is to provide postdoctoral instruction and training in the art, science, principles and practice of osteopathic medicine, and to contribute to the advancement of knowledge, including osteopathic contributions to medicine through scientific research.

OPTI Strategic Objectives

Members of the KCU-GMEC have mutual objectives: To promote the highest possible quality in the continuum of osteopathic pre-doctoral and postdoctoral medical education, including continuous quality assessment; To strengthen the osteopathic pre-doctoral and post-doctoral linkage in medical education, thereby enhancing both; To provide enhanced academic resources to hospital partners, in the form of both personnel and information technology; and To appropriately align financial responsibility with KCU assuming the major financial commitment and administrative responsibilities for the OPTI.
OPTI Services

Faculty and Resident Development
Several online faculty development opportunities available. KCU-GMEC develops programs as determined by the Graduate Medical Education Committee.

Research
Assistance with research resources, grant development, poster and/or publication assistance, Institutional Review Board, research opportunities, etc.

Osteopathic Principles & Osteopathic Manipulative Treatment (OMT)
Annual workshops, ACOFP OMT Resources, services as requested or needed as determined by the Graduate Medical Education Committee.

New Program Development
All of the new training programs abide by the guidelines of the American Osteopathic Association (AOA) and the Accreditation Council for Graduate Medical Education (ACGME). Below is a listing of all new programs: Unity Health-White County Medical Center EM. In addition, several programs from other OPTI's have joined our consortium.
